

Meeting Agenda

Date: 2015-05-08

Facilitator: Michael Tran

Participants: Erik, Patrik, Michael

1. Objectives (5 min). Resolve any issues preventing the team to continue.

There's a minor problem with getting a table from a stored local database (derby).
Connecting to the local embedded database is fine, but fails to retrieve a table from it.
Still looking more into it!

2. Reports (15 min) from previous meeting

More tests, controllers and views added since last time. Started working with a local embedded database (derby).

3. Discussion items (35 min)

Discussed about how to handle "invalid" values. Should check for values in the model.

4. Outcomes and assignments (5 min)

Everyone should continue with their work (with the assignments from last week).

5. Wrap up

- Write down unresolved issues for next meeting

N/A

- Time and location for next meeting

2015-05-11 13:15 - 16:00 Idegr5
