

Meeting

Date: 17th April 2015

Facilitator: Patrick

Participants: Erik, Johan, Michael, Patrick

1. Objectives (5 min). Resolve any issues preventing the team to continue.

We didn't have any issues.

2. Reports (15 min) from previous meeting

Erik worked on the Use Cases and Patrick built an initial GUI-mockup in Netbeans.

3. Discussion items (35 min)

We're revising our Use Cases implementing the suggestion from the last meeting with Sebastian and think about, how we best can build the GUI. We're also discussion times for our meetings during the Valborg-veckan.

In addition we're discussing our short presentation for the seminar on Monday 20th.

4. Outcomes and assignments (5 min)

For the seminar on Monday 20th, we come up with the following assignments:

- General idea – Erik
- GUI – Patrick
- UML-diagram – Michael
- Model – Johan

Patrick will continue working on the GUI. Erik & Michael will look into Netbeans-databases and how to sync data across several devices.

5. Wrap up

We will have an additional short meeting on Monday 20th at 1200h in 3215.

The next regular group meeting will be on Tuesday 21st at 1200h in 6213.
